Our Mission
The Broward Gold Coast Down Syndrome Organization is a family support and resource organization dedicated to serving families who have an individual with Down syndrome. Our mission is to improve the lives of people with Down syndrome and their families by providing support, information, education, and advocacy, thus enabling each individual to reach his or her full potential.

People with Down syndrome attend school, work, participate in decisions that affect them, have meaningful relationships, vote and contribute to society in many wonderful ways.

Down syndrome…

◆ Occurs when an individual has a full or partial extra copy of chromosome 21. This additional genetic material alters the course of development and causes the characteristics associated with Down syndrome.
◆ Occurs in about 1 in every 700 births and affects approximately 400,000 individuals in the United States.
◆ Is one of the leading causes of cognitive delays and occurs in all ethnic groups, socio-economic classes and nationalities.
◆ Can cause delays in physical, intellectual and language development.

Quality educational programs, a stimulating home environment, good health care and positive support from family, friends and the community enable people with Down syndrome to lead fulfilling and productive lives.
